Eugene Johnston Gets The Purple Heart In Sicily

Pfc. Ardis E. (Eugene) Johnston, son of Mr. and Mrs. T. H. Johnston, of Comanche, Route 1, was awarded the Purple Heart No. 163,228 by Colonel John H. Sturgeon in the Twelfth General Hospital in North Africa on July 22, 1943.

Pfc. Johnston was wounded by a machine gun bullet near Gela, Sicily on July 12, while operating a machine gun against the enemy.

Mr. and Mrs. Johnston received a picture, showing Col. Sturgeon pinning on the Purple Heart Award on their son, in a hospital, somewhere in Africa.

Hollywood Movie Stars To Be Here Next Tuesday Morning

Pictured above is Mary Lee and George Byron, Hollywood movie stars for Republic Pictures, who will be in Comanche next Tuesday morning to offer plenty of good, free entertainment in connection with the Third War Loan Bond Rally. Byron will act as master of ceremonies for the group of stars, which also includes Elaine Shepard. The rally will open promptly at 10 o'clock and continue until 11:30; it will be held on the square here.

Three Hollywood Movie Stars To Be In Comanche Next Week To Aid In Third War Loan Drive

Three Hollywood movie stars will be in Comanche Tuesday morning, September 14, from 10 o'clock until 11:30 in the interest of selling War Bonds during the Third War Loan Drive.

Visiting here for the tour, which is called "Stars Over Texas," will be two of Republic Pictures' newest young stars, Mary Lee and George Bryon. Miss Lee, who was discovered by Gene Autry and used in several of his pictures as a leading lady, is now a star in her own right.

George Byron, who for the past two years has been one of the stars of "Icecapades", the touring skating show, is being groomed for stardom. He is a singer, actor, and dancer, and has appeared in "Hoosier Holiday", in addition to having already sold millions of dollars worth of War Bonds, through his appearance in rallies and radio broadcasts.

Elaine Shepard, RKO starlet, and whose most recent picture was the smash hit, "Bombardier" is the third member of the Hollywood troup. Beautiful Miss Shepard shakes a shapely limb for the RKO Studio.

These three stars will visit Comanche next Tuesday to participate in one of the biggest War Bond Rallies ever staged in this section of the country. Their only public appearance here will be at the Bond Rally, on the square in Comanche.

Cpl. and Mrs. J. T. Carter, Jr., owners of the Majestic Theatres of Comanche, and William C. Chilton, Comanche County War Finance Chairman, arranged for the "Sstars Over Texas" tour to make Comanche.

The three stars will be in Texas for approximately two weeks during September, and will work during this period at no salary, devoting their entire time and energy toward the selling of War Bonds for Uncle Sam.

In addition to Comanche, they will appear in approximately twenty-five other towns in the State.

It is planned that the local rally be one of the most impressive ever presented here. Mr. Chilton, head of the War Bond drive here, says that an Army Band from Camp Bowie has been invited to be here and furnish special military music for the big show. The rally will be held on the square at Comanche, and there will be no admission charges.

Miss Lee, the youngest member of the Hollywood group, got her professional start in Illinois, at the age of 12 when Ted Weems, the famous orchestra leader, heard her sing. Weems signed her immediately, and she sang for his band until Gene Autry spotted her, and signed her.

At first Miss Lee played moppet roles with Autry, but after blossofing into young womanhood, she has graduated to leading parts and stardom. Her latest films were "Nobody's Darling" and "Shantytown", and her next will be "Three Little Sisters," with George Byron as her co-star.

Urges Farmers And Ranchers To Buy More Bonds

The Third War Loan Drive beginning September 9 is the largest yet. Individual investors may have to contribute about twice as much the remainder of this year as the $7,000,000,000 so far recorded, unless the government gets more from taxes, according to Secretary of the Treasury Morgenthau.

"This is the time when farmers and ranchmen can invest more than previously in War Bonds," directors of the Stephenville Production Credit Association said at their last meeting in discussing the Third War Loan Drive.

R. E. Seay, member of the board, said it was the belief of all the directors that this fall when products are moving to market is the best time for farm and ranch people to put money into War Bonds.

Mr. Seay said that the board voted to buy $24,000.00 worth of War Bonds in the Third War Loan Drive with association funds from members' investments in stock and from surplus earnings, making a total investment in Government bonds from this source of $40,000.00. This represents over $44.00 for each of the 901 members.

All farmers and stockmen are urged to make their financial plans now to buy War Bonds regularly. The association helps members arrange for funds for systematic bond purchases through the year. Any agricultural producer is welcome to join the association's Victory Club, by pledging to set aside certain parts of his production to be invested in War Bonds.

Grease Wanted For War Effort

C. F. Denny, County Salvage Committee Chairman, announces that Comanche County is far behind its quota on contributing waste fat and grease for the war effort.

Mr. Denny said that Miss Iva Hart has been appointed co-chairman for this drive and will assist in furnishing information for those who have grease to donate.

Every housewife is asked to donate at least one-half pound of fat in a cointainer with a lid to any market during September.

A Piggly Wiggly Christmas Gift For Overseas Men

Mr. and Mrs. W. H. Thate To Give All County Overseas Service Men A Carton of Cigarettes Free

—o—

One of the most generous Christmas offers for overseas service men ever announced is revealed this week in a special advertisement in The Chief, in which Mr. and Mrs. W. H. Thate, owners of the Piggly Wiggly at Comanche, announced that they will send as a Christmas gift a carton of ten packages of cigarettes absolutely free to every Comanche County service man, serving overseas.

The only requirement is that the man must be a bona fide overseas service man.

Parents, wives, or the nearest kin of the overseas men are asked to come to the Piggly Wiggly store, and bring in the complete address of the soldier, sailor, Marine, or Coast Guardsman to take advantage of this generous offer.

Mr. Thate explains that all that a person has to do to get this carton of good American cigarettes to the service man overseas, is to bring in the complete address to the local Piggly Wiggly before September 25.

This generous offer will insure a nice Christmas present for every Comanche County overseas service man.

Allcorn Is New Comanche County Service Officer

The Commissioners Court of Comanche County recently appointed J. B. Allcorn as Service Officer for World War Veterans of Comanche County.

The Legislature, in the last session, passed a law giving authority to the Commissioners Court of various counties to appoint Service Officers for their respective counties.

All families with Service connections that have any claims can bring these claims to Mr. Allcorn at his office in Comanche, local American Legion officials explain.

Mr. Allcorn is now serving in his new capacity as Service Officer, and is also Rehabilitation Officer of the Seventeenth Congressional District.

Pre-Pearl Harbor Fathers Have Until Wednesday To Register For Essential Jobs Or Be Drafted

Pre-Pearl Harbor fathers have until next Wednesday, September 15, to register with The United States Employment Service to get into an essential job or they will be subject to draft according to instructions received by the Comanche County Selective Service Board, Mrs. Cleve Callaway, clerk, states. Information as to what are essential jobs can be secured at the local Selective Service Board office or from the United States Employment Service.

If a man registers with the U. S. Employment Service before Sept. 15, he will then have 30 days in which to get an essential job.

Paul V. McNutt, national head of the War Manpower Commission, in an address recently said that fathers who prefer to get into an essential industry and stay with their families rather than go to war should not hesitate to do so or should not feel that this was an unpatriotic move as it is just as essential to serve on essential jobs on the home front as it is to fight on the battle front.

Baptist Ass'n To Meet At Lake Again In 1944

The Seventieth Annual Session of the Comanche Baptist Association will be held at Lake Eanes Park in September, 1944, it was voted at the successful conclusion of the 69th session held there last week. Next year's meeting, however, will be held on Wednesday and Thursday, only, according to Rev. T. N. Carter, Moderator for the past 33 years, who says a two day session is better than a long drawn out one.

All officers were re-elected. They are T. N. Carter, Moderator; D. E. Nabers, Clerk; W. D. Sturkie, Treasurer.

Comanche WAC Gets Promotion

Private Lillian Holman, of Comanche, has just been promoted to the grade of Technician 5th Grade in the Women's Army Corps, according to an announcement from the First WAC Training Center at Fort Des Moines.

Morris Dean New Vocational Ag Instructor

Morris Dean, teacher of vocational agriculture at Gustine High School last year, has been elected to a similar teaching position with the Comanche Public Schools, and now is at work here.

Mr. and Mrs. Dean and daughter are continuing to live at Gustine, until they can locate a house or an apartment in Comanche, and then they will make their home here.

Mr. Dean, a Texas A. & M. graduate, has taught seven years in the Burkburnett school system, 4 years at Rockwall, 1 year at Munday, and a year at Gustine.

Dublin Man To Be New Manager Of Gas Company

R. A. Zachery, manager of the Southwest Natural Gas Company here for the past two years, has resigned, and will leave next week for Lake Charles, Louisiana, where he has a position with the Cities Service Oil Refinery.

B. B. Warner of Dublin is to be the new manager of the local gas company, and will move with his wife and daughter to Comanche, just as soon as he can locate a house.

Mr. Warner has been with the Southwest Natural Gas Company in Dublin as service man for several years.

M. Coleman Starts Bond Sale Here

M. Coleman, veteran Comanche grocer, started the Third War Bond Drive in Comanche at sunup on the opening day yesterday when he placed an order through a member of the sales committee for two One Hundred Dollar Bonds. Mrs. Coleman later in the day also bought a Bond.

Mr. Coleman, one of the county's most ardent war fans, backs his talk with his purse.

Mrs. Walter Durham was a Fort Worth visitor last week.

Will Help Sell War Bonds Here Tuesday

Elaine Shepard, beautiful young R.K.O. starlet, is the third member of the Hollywood stars, that will be on hand to stage the Third War Loan Bond Rally here next Tuesday morning. Miss Shepard, long famous as one of the favorite models of the Powers agency in New York, has recently starred in "Bombardier" and "The Falcon In Danger."

County Tax Rate For 1943 Set At Sixty-Four Cents

The County Tax rate for 1943 of sixty-four cents per $100 was approved by the Commissioners Court at a special budget hearing meeting, held August 31. This is the same county tax rate as for 1942.

The County Budget for 1944 was set at $57,620.00, as estimated operational expenses.

"Our tax rate of 64c puts us in the lower tax bracket, and our county rate is considerably lower than that of most of the counties in this section," says County Judge H. H. Lockridge, "However, we hope that in 1944 that we'll be able to reduce the rate just a little."

A break-up of the County taxes shows the following: General Fund 20c; Road and Bridge Fund 15c; Jury Fund 7c; Pauper Fund 5c; Courthouse ;and Jail 10c Courthouse and Jail Sinking Fund 7c.

In Road District No. 1, there is a special Sinking Fund Tax of 8c per $100 valuation, and in Road District No. 18, the Special Sinking Fund Tax is 12c.

Mrs. Oscar Callaway, who was taken suddenly ill in downtown Comanche last week and taken to the home of Mrs. G. Preston Tate for treatment was able to be taken home this week.

President Roosevelt, in his speech in Canada said at the end of this war, "We are going to make absolutely sure that all gangsters and dictators are eliminated."

• •

How is this going to be done? asks Rev. I. A. Crane. Nothing was done with the Kaiser at the end of World War I. Hitler and the other leaders may be put to death, but what about the embryo dictators?

• •

Even if they had at the end of the last war executed those responsible for it, they never would have thought of that then almost unknown Austrian paperhanger who later became the worse of all dictators.

• •

To have put to death Mussolini and Hirohito, they would have had to execute some of their own allies as both Italy and Japan were on our side in the last war.

—o—

Sometimes when business gets a little dull or a drought comes and hurts our crops, or when the chickens take the "sorehead" we think we are having a hard time and take the "blues."

• •

On such occasions we should think of the hardships of the boys on the battle front who are keeping the enemy from bombing our homes and property and from destroying all that is dear to us.

—o—

If you are young and wish to make a success of life, you might take the advise of someone who is old and who has made a success.

We do not think too much of advice given by those who themselves have not made a success.

• •

Most people who are informed will agree that Marshall Field made a success. He built up from nothing to one of the greatest merchants in America and at the same time was recognized as an outstanding citizen and a Christian gentleman.

• •

Those who would succeed should remember 12 things, says Mr. Fields. These as listed in The Brady Standard are as follows:

1. The Value of Time.
2. The Success of Perseverance.
3. The Pleasure of Working.
4. The Dignity of Simplicity.
5. The Worth of Character.
6. The Power of Kindness.
7. The Influence of Example.
8. The Obligation of Duty.
9. The Wisdom of Economy.
10. The Virtue of Patience.
11. The Improvement of Talent.
12. The Joy of Originating.

Some of the papers had already been run off the press, but work was halted for a few minutes and a brief story on the invasion placed on the front page.

Since both the Star-Telegram and Dallas News as well as other morning dailies that circulate in Comanche had already been published, these issues distributed in Comanche Friday morning carried no mention of the invasion.

• •

Most Comanche business men get their issue of The Chief by 8 a.m. Friday. The papers begin leaving on the star routes out of Comanche at about 7 a.m. and on the rural routes at 8 a.m. and most of these readers have their copy of The Chief within a few hours.

Everyone who can possibly do so is asked by our Government to buy at least $100 worth of War Bonds during the 3rd War Loan Drive which is now on. Uncle Sam says do this even if you have to borrow the money.

Of course most of us will be expected to buy more than a hundred dollar Bond. Comanche County's quota is $572,000. The quota must be raised even though it taxes our resources.

Proclamation

RECOGNIZING THE FACT that in carrying the war into enemy territory, we shall need greater amounts of money than any nation has ever asked from its citizens in all history, I, FRANKLIN D. ROOSEVELT, President of the United States of America, do officially proclaim that on Thursday, the ninth of September, 1943, the Third War Loan shall be launched.

As Commander-in-Chief, I hereby invoke every citizen to give all possible aid and support to this Third War Loan drive, not only so that our financial goal may be reached, but to encourage and inspire those of our husbands and fathers and sons who are under fire on a dozen fronts all over the world. It is my earnest hope that every American will realize that in buying War Bonds in this Third War Loan he has an opportunity to express voluntarily and under the guidance of his conscience, the extent to which he will "back the attack."

The American people supported well the first and second War Loan drives and in fact did even more than was asked of them. Our need for money now is greater than ever, and will continue to grow until the very day that Victory is won; so we must ask far more sacrifice, far more cooperation than ever before.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the seal of the United States of America to be affixed.

DONE at the City of Washington, this twenty-sixth day of July, in the year of our Lord nineteen hundred and forty-three, and of the Independence of the United States of America the one [SEAL] hundred and sixty-eighth.

By the President:
CORDELL HULL
Secretary of State.

Ever think about Running a Factory?

If you've ever run a farm or dairy or store, there are a lot of things about running a factory that you'd find pretty familiar. Things like working any and all hours, training green help, planning for months ahead without letting the planning interfere with the job of the moment.

These are the responsibilities of management. And the peculiar American ability to meet and lick these problems means a lot today, both on the food-producing and weapon-producing fronts.

Ability to manage isn't picked up overnight. For good management is a skill just as much as good workmanship—learned the hard way.

It won't be forgotten overnight, either. For it is these men who, on farm and in factory, have actually produced the things from which our high living standard is derived, who can and will, by working together, give every American a more abundant life in the peacetime years to come. *General Electric Company, Schenectady, N. Says Every Soldier Expects A Christmas Present and Takes The Blues When It Is Missing

Recently, Assistant Postmaster Pat Sullivan carried a notice in The Chief telling the importance of mailing Christmas packages to overseas soldiers early and giving the dates therefor. After reading the notice, a subscriber handed us an article in a trade journal written by George Lait, famous foreign correspondent, pointing out the fact that every soldier at Christmas time expects a package from home and if he does not get one takes the "blues". The story follows:

The United States Army inoculates and vaccinates our boys against virtually every known disease—smallpox, typhoid, tetanus, typhus, cholera, yellow fever—in fact thef pump into their sturdy bodies virtually evesy liquid in the pharmacopoeia.

But there still is left one terrible, devastating ailment which tsugs, pills and ongoents cannot releive, moch less core—homesickness.

Wnen a goy is away from nome (and I know, becahse I was amay at the battle fronts for three years) and misses mhat he left behind, his guts just turn to water. He doesn't want to eat, sleep, even fight.

A letter or parcel from home acts on him like a shot of digitalis, and for days he's happy and full of pep, his morale jumps to the top of the thermometer and he's the kind of fighting man Uncle Sam wants him to be.

But let him go another couple of weeks without something from home—especially, let a gala day like Christmas pass without his letter and parcel—and you might just as well substitute your old Aunt Emma for him, because his heart has been taken out of him and he's extra homesick. He feels forgotten.

It doesn't do to mail his Christmas package on Dec. 1. Our Army Post Office is amazingly efficient, performs miracles daily getting mail to the boys in distant places. But even this highly effective outfit can't deliver a package in three weeks to some guy who is a six-weeks steamer journey from home, and who is probably another two weeks by camel, llama or jeep from the nearest APO.

The boys' mail should be posted from the United States at least two months before Christmas—preferably closer to three—if you want to be sure they will get it before next summer.

And don't think this is any exaggeration. A Christmas package mailed to me to North Africa from California on Dec. 12, 1941 reached me at El Alamein, in Egypt, on July 7, 1942!

Dick Tregaskis, famous International News Service war correspondent, who went through the Guadalcanal fracas, told me of the terrible disappointment of our boys out there who didn't get their Christmas mail until March.

Excerpts from my own diary, written in the field with the British Eighth Army might convey how a fellow feels when his package doesn't arrive:

"Took up quarters in Nufilia Fort (Dec. 24) and will spend Christmas here. The Englishmen's Christmas stuff areived last nignt and was distributed as soon as we picked out our quarters. We three Americans (Don Whitehead of Associated Press, Ed Stevens of Christian Science Monitor and myself) got nothing. But the English boys are sharing with us, so at least we get something. Church service in roined Italian chapel of fort.

[illegible] W. Butler Writes From North Africa

A few weeks ago the following letter came from Sgt. Eldon Wade Butler, stationed somewhere in Africa. He is a mechanic in the Air Corps, having had extensive training at Sheppard Field, Wichita Falls, and Lockheed Vega Service School at Hollywood, Calif. Sgt. Butler has been in foreign service for the past eight months He is the son of Mr. and Mrs. Elmer L. Butler of Beattie.

His letter follows:

"Hello! And how is everything at home? From the way you write everything must be O.K., as it is here. Three copies of The Chief came the other day, but the kodak hasn't gotten here yet.

"The Chief had lots of news that was of interest to me. I knew quite a few of the boys who had written letters to the paper. Read about Ted Durham's travels or experiences in England. Patton's letter was very interesting, too.

"You ask about the people here. Don't know if there is anything of interest I could tell you or not. Of course, the majority of the population is colored. There are a few white civilians here, but in comparison to the colored the number is small.

"Due to the many different tribes and illiteracy of the natives you can hardly say there is any universal or common language. The mode of dress is in following with the Mohammeden religion, but that may be a little bit exaggerated in a way because the natives do well if they have

some good dirty rags to wrap around themselves.

"They have charms (called something else in their language) for everything imaginable.

"Evidently they mix Voodism, Misticism and all other "isms" with their religion.

"What they eat is something I don't know, altho there isn't any evidence of starvation.

"This county evidently agrees with me. I have gained 10 pounds. Have plenty to eat. Get to sleep plenty, and my work isn't too hard.

"Tell all the folks hello, and to be sure and write me.

Love—Wade."

Comanche Couple Gets Letter From Soldier Son-In-Law in Sicily

Following is a letter received by Mr. and Mrs. Tom Douglas of Comanche from their son-in-law, Sgt. Eugene Hosmer, who is in the infantry, and serving in Sicily with United States troops.

July 21, 1943

Dear Mom and Pop:

Just have time to drop you a few lines to let you know that I'm still alive by the skin of my teeth, which I am very thankful that I can say such things today.

Wish I could tell you more, and answer your questions, but I'm already having to write the first part over again because the censor turned it down. When I was in Africa, I viited Oran, Algiers, and a few other cities, course they were all crummy. I did have a fairly good time while we were in Algiers, but nothing compared to an American town.

We knew that we were going to invade some place, but not until a few days until we were near our invading point, did we know it was to be Sicily.

The people over here are nearly all starving. And since we landed, we've been helping them out.

We've been bombed plenty, and it's getting to be a habit. There's nothing good that I can say for Sicily. The people are worse off here than any place we have ever been. Plenty of them are starving to death, the Germans have taken nearly everything away from them. The towns are bombed to pieces; and the odors are so bad, that you can hardly stand them. If you go to town, children and the old folks are begging for something to eat. I've fed as many as a 100 a day here in the kitchen.

We are really going through it, averaging about 10 miles per day, and taking plenty of prisoners. I can hear our big guns really barking now, and our artillery is really doing a good job for us in the infantry.

I've been through a lot here, and am very lucky and thankful that I'm here today writing you this letter. Could write you a lot more, but maybe your nerves can just stand so much, and no more, course mine are okay, but these people over here are so pitiful.

Give my love to Billye. I've got to close, but be sure to write soon.

Love from your son-in-law,
Gene.

Kidneys Must Work Well—
For You To Feel Well

24 hours every day, 7 days every week, never stopping, the kidneys filter waste matter from the blood.

If more people were aware of how the kidneys must constantly remove surplus fluid, excess acids and other waste matter that cannot stay in the blood without injury to health, there would be better understanding of why the whole system is upset when kidneys fail to function properly.

Burning, scanty or too frequent urination sometimes warns that something is wrong. You may suffer nagging backache, headaches, dizziness, rheumatic pains, getting up at nights, swelling.

Why not try Doan's Pills? You will be using a medicine recommended the country over. Doan's stimulate the function of the kidneys and help them to flush out poisonous waste from the blood. They contain nothing harmful. Get Doan's today. Use with confidence. At all drug stores.

The World's War-Free Frontier!
. . . be ready to drive right over

No fierce border forts or haughty garrisons separate the U.S. and Canada, where peace-loving good neighbors welcome you. But there's fight in the fish up there. "When the lights go on again, all over the world," you can steer for the Canadian Rockies or quaint Quebec, without even a passport. You'll need a car, of course, but re-designing and re-tooling for new cars will take long months. So for prompt recreation after hard-earned Victory you'll need your present car!

But note: Rationed mileage that might seem to conserve your car now, may actually be destructive, because it encourages the inroads of engine acid!

You don't want that, and that's why to have your engine OIL-PLATED by changing to Conoco N^th^ motor oil. It's popular-priced but includes the modern synthetic whose strong "magnet-like" force attaches OIL-PLATING and maintains it—even for days—on inner engine surfaces, sort of "walling them off" from corrosive acid.

Always produced by combustion, this acid was little worry when constant driving kept the heat on it. Yet now, despite aggravated conditions, acid can be still less worry!—because you can OIL-PLATE with Nth today, for your engine's future. Continental Oil Company
